

C.V

Personal Information:

Name: Sami Muhammad Sarfaraz
Date of Birth: 16-2-1989
Age: 34 Year
Marital Status: Single
Nationality: Pakistan
Languages: Bilingual (Arabic & English)
Place of Birth: Kuwait
Gender: Male
Mobile No: 90024040
Permanent Address: Salmiya
E-mail: Network-Engineer@outlook.com
R. Article Number: 18 Transferable
Smoker: No
Functional Area: Information Technology
Experience Years: 13 Year
Major: B.Sc. in Information & Communication Technologies (ICT).

Educational Qualifications and Certifications:

- Al-Najat High School, Kuwait, Graduated in **2007**.
- Arab Open University (AOU), Kuwait, Graduated in **2014**:
 - ✓ B.Sc. in Information, Computing & Communication Technologies (ICT).
- New Horizons Institute, Kuwait, Graduated in **2009**:
 - ✓ Diploma in Microsoft Certified Systems Engineer (MCSE).
- Finished Study in High Studies Institute-(2008):
 - ✓ Windows XP, Photoshop and Data Entry Course.
- Finished Study in America-Mideast Educational and Training Services, Inc. (AMIDEAST)-(2009):
 - ✓ English Level 1 & Level 2 and Passed TOEFL iBT Exam.
- E-Learning Certificate in Wireless Technology- New Horizons Institute (2009):
 - ✓ Troubleshooting Wireless Networks Course.
- E-Learning Certificate in Wireless Technology- New Horizons Institute (2009):
 - ✓ 802.11 Regulations, Standards, and Devices Course.
- E-Learning Certificate in Network Services- New Horizons Institute (2009):
 - ✓ LAN-WAN Integration Course
- Australian College of Kuwait (ACK)-(2010):
 - ✓ Call Center Customer Service Course.

- International Computer Driving Licence (ICDL)-(2009):
✓ Passed all exams of Microsoft Office.
- Windows XP Client Configuration (MCP)-(2010):
✓ Passed Exam: (70-270)
- Windows Vista Client Configuration (MCTS)-(2009):
✓ Passed Exam: (70-620)
- Windows 7 Client Configuration (MCTS)-(2010):
✓ Passed Exam: (70-680)
- Microsoft Certified Systems Administrator (MCSA)-(2010):
✓ Passed Exam: (70-290, 70-291)
- Microsoft Certified Systems Engineer (MCSE)-(2010):
✓ Passed Exam: (70-293, 70-294, 70-298, 70-350)
- Windows Server 2008 Active Directory, Configuration (MCTS)-(2010):
✓ Passed Exam: (70-640)
- Windows Server 2008 Network Infrastructure, Configuration (MCTS)-(2010):
✓ Passed Exam: (70-642)
- Windows Server 2008 Applications Infrastructure, Configuration (MCTS)-(2010):
✓ Passed Exam: (70-643)
- Windows Server 2008 Solutions Associate (MCSA)-(2012):
✓ Passed Exams (70-640-70-642)
- Enterprise Administrator, Microsoft Certified IT Professional (MCITP)-(2010):
✓ Passed Exam: (70-647)
- Cisco Certified Network Associate (CCNA) Routing & Switching-(2011):
✓ Passed Exam: (640-802, 200-125)
- Cisco Certified Network Associate Wireless (CCNAW) Implementing Cisco Unified Wireless Networking Essentials-(2011):
✓ Passed Exam: (640-721)
- Cisco Certified Network Associate Voice (CCNAV) Cisco Voice and Unified Communications Administration-(2013):
✓ Passed Exam: (640-461)
- Cisco Certified Network Associate Security (CCNAS) Implementing Cisco Network Security-(2016):
✓ Passed Exam: (210-260)
- Programming in HTML5 with JavaScript and CSS3(2013):
✓ Passed Exam: (70-480)
- ITIL Foundation Certificate in IT Service Management (2015):
✓ Passed Exam: (EX0-001)
- Windows Server 2012 Solutions Associate (MCSA)-(2015):
✓ Passed Exam: (70-417)
- Microsoft Certified Solutions Expert-Desktop Infrastructure (MCSE)-(2015):
✓ Passed Exams: (70-415, 70-416)
- Microsoft Certified Solutions Associate (MCSA Windows 10)-(2018):

- ✓ Passed Exams: (70-697, 70-698)
- Microsoft Certified Solutions Expert – Mobility (MCSE Mobility)-(2018):
 - ✓ Passed Exams: (70-398)
- The Computing Technology Industry Association (CompTIA A+)-(2018):
 - ✓ Passed Exams: (220-901, 220-902)
- Fortinet Network Security Expert (NSE 4)-(2021):
 - ✓ Passed Exam: (Fortinet NSE 4)
- Cisco Certified Network Professional (CCNP Enterprise)-(2021):
 - ✓ Passed Exams:
 - 350-401 Implementing and Operating Cisco Enterprise Network Core Technologies.
 - 300-410 -Implementing Cisco Enterprise Advanced Routing and Services.
- Cisco Introduction to Cybersecurity-(2022):
 - ✓ Passed and completed exam, quizzes and assignments.
- Cisco Cybersecurity Essentials-(2022):
 - ✓ Passed and completed exam, quizzes and assignments.
- Cisco Cyber Threat Management-(2023):
 - ✓ Passed and completed exam, quizzes and assignments.
- Cisco Cyber Network Defense-(2023):
 - ✓ Passed and completed exam, quizzes and assignments.
- Qualys Certified Specialist - VMDR Administration-(2023):
 - ✓ Passed and completed quizzes and exam.
- Qualys Certified Specialist - VMDR Foundation-(2023):
 - ✓ Passed and completed quizzes and exam.
- Qualys Certified Specialist - Vulnerability Management Detection and Response-(2023):
 - ✓ Passed and completed quizzes and exam.
- Qualys Certified Specialist - CyberSecurity Asset Management (CSAM)-(2023):
 - ✓ Passed and completed quizzes and exam.
- Qualys Certified Specialist - Scanning Strategies and Best Practices-(2023):
 - ✓ Passed and completed quizzes and exam.

Work Experience:

- **IT Infrastructure Support-** (May/2022 – OCT/2023)
Al-Intiaz International Real Estate:
 - Incident management using ManageEngine ServiceDesk Plus support.
 - Administration of ManageEngine Endpoint Central including: Windows update Deployment/Patch Management, Software Deployment, Server/Desktop management, Advanced Remote Control, Inventory and Reports.
 - Implementation and configuration of SNMP Server/Manager (ManageEngine OpManager) including: setup server, add/remove nodes, configure network nodes with SNMPV3/WMI, alerts, reporting, sensors, template and etc.

- Administration of infrastructure security (Fortigate Firewall, Qualys Vulnerability Management Detection & Response (VMDR), cisco switch port security, ACL, disable/upgrade legacy protocols, and review logs).
 - Design LAN/WAN architecture using Visio application.
 - Administration (LAN, WAN, WLAN and etc.) devices with troubleshooting connectivity related issues for services: Internet, Data, VOIP (E1/SIP Trunk), in coordination with ISP Core/NOC engineer.
 - Administration of Cisco products (Cisco Core Router/Switch, Edge Switch, WAN switch and Cisco WLC/AP).
 - Administration of Microsoft products (Microsoft Active Directory, GPMC, Azure, Office 365, Exchange admin (GUI+Powershell), and SharePoint/One Drive).
 - Administration of VMware (ESXi and vCenter).
 - Prepare network infrastructure documentation including: Network maps, nodes, servers list, IP/Subnets list, VOIP/PSTN Lines, hardware/software installation procedures.
 - Low voltage system: (CCTV Camera, Door/Turnstile access control, Biostar access control system).
 - Provide technical support and assist to users and tenants on-site, via email, phone or remote-access system.
 - Attend weekly meeting with management.
- **Senior B2B Support Agent (NOC) - (May/2019 – May/2022)**
- Fast Telecommunication Company (FASTtelco):**
- Manage corporate user's incident using AdventNet ServiceDesk Plus/Siebel and BMC Remedy ITSM Software.
 - Provide technical advice and guidance for 1st level support team.
 - Identify, isolate, and resolve connectivity related issues over various services; Data (MPLS), Internet (ADSL, Fiber Optics, GPON, 4G/5G, WiMax and Microwave), Voice (E1, SIP Trunk, Centrex).
 - Troubleshoot special projects (Malls and Commercial Complexes) incidents and work on different network designs.
 - Configure, Identify and resolve IP routing protocols issues (BGP, RIP, OSPF, EIGRP and Static routing).
 - Configuration of corporate user equipment's: Cisco, 3com and HP router & switch using SecureCRT client with required configurations (Routing Protocols, GRE Tunnel, HSRP/GLBP, NAT, VLAN, DHCP, DNS, Encapsulation, MTU, ACL and Port security).
 - Troubleshoot and diagnose voice service-related issues on various PBX systems: (CUCM), XonTel, Yeaster and IP and cisco voice gateway.
 - Provide support for FortiGate Firewall with setup process: establishing and enforcing policies, monitoring, SSL/S2S VPN, Security profiles and etc.
 - Troubleshoot WLAN/LAN connectivity issues and give appropriate solutions.

- Setup a wireless network (Wi-Fi) on various access points brands (Linksys, D-link, Netgear), and resolve wireless related issues.
- Monitor backbone links, network equipment, international circuits using various tools (MRTG tool, Cacti Tool), keep track of system alerts/events using (SolarWinds Orion platform) and take necessary action to ensure that all systems are under good working condition.
- Analyze network traffic and protect network from DDoS attack/Cyber threats using Arbor Networks SP platform.
- Manage user account and resolve session related issues using RADIUS Server.
- Provide support to the field technicians, field engineers, and residential support team by giving appropriate resolution to network related issues.
- Provide remote support using AnyDesk/Teamviewer tool.
- Research technical issues and discuss possible resolutions with senior engineers.
- Research and provide detailed reports to the NOC director with regards to network performance, service availability, outages, and major issues.
- Participate in monthly management meetings to discuss goals, progress, and any issues in need of resolution.
- Training of recently hired staff technically and introduce them with company policy and procedures.

▪ **I.T Field Engineer - (Oct/2015 – Apr/2019)**

Kuwait Petroleum Corporation(KPC) – Diyar Outsourcing Project:

- Provide technical assistance to KPC staff and premium support to VIP clients (Oil Minister office, CEO office, MD, DMD and Managers).
- Troubleshoot Oracle ERP system related issues and give proper solution.
- Manage user's incident using BMC FootPrints/BMC Remedy ITSM Software.
- Meet SLA requirements and adhere to company policy and procedures.
- Troubleshoot and resolve hardware, software, network, and peripheral problems.
- Leading the team to achieve an assigned task with preparing reports and proposals in precise details for the assigned task, thus escalating those reports to the IT director.
- Prepare and upload technical documentation for assigned task to company portal website.
- Prepare training labs with peripherals for students with required hardware/software.
- Support operating systems (Windows 7, 8.1, 10).
- Install and configure the peripherals (Printers, Scanner, Projector, Mounting Kit) components and drivers.
- Software installation, updating, and troubleshooting.
- Files backup, restore and transfer mechanisms.
- Install/Format users PC's (Laptop-Desktop) and configure RAID.
- Kiosk machine hardware, software, and network support.
- Scan user machines of virus and protecting machines using different tools.

- Administration and configuration of windows deployment services (WDS) on server 2012, deploying windows 8.1 and 10 after capturing/preparing images with required softwares and drivers.
 - Manage user accounts in active directory in Windows Server 2012.
 - Create shared folders in Windows Server 2012 and give users appropriate permissions.
 - Analyze and diagnose user problems remotely using Remote desktop or remote assist tool.
 - Identify and troubleshoot a TCP/IP related networking problems using different tools (ipconfig, ping, tracert, netstat).
 - Troubleshoot, identify, categorize and respond to network (LAN, WLAN, WAN) issues.
 - Domain support, assist users to connect to KPC Wi-Fi network on different devices (Tables, SmartPhone, and Laptop) and provide a solution to any problems related to Wi-Fi connectivity.
 - Training of recently hired staff technically and introduce them with company policy and procedures.
 - KNPC Project: Install and upgrade user systems (Desktop, Laptop, Microsoft Service Pro, Printer and Scanner).
- **Retail Backbone Support Level 2 - (2012 – Aug/2015)**
- Zajil/KEMS Telecom Company:**
- Managing and resolving users incident using Remedy IT Service Management Software.
 - Activation of ADSL/SDSL/SHDSL services by configuring backbone(VLAN, Username/Password, Static/Dynamic IP Address, Virtual Circuit, Connection type, Modulation and speed) using different DSLAMs(Cisco 6260, Zhone NP, Zhone MALC, and Zhone MXK).
 - Troubleshoot connectivity issues related to residential complexes using Cisco Edge/Core switch.
 - Activation of GPON service (ONT/OLT activation, speed, vlans, uplink/downlink) using Zhone MX-160/260 DSLAM.
 - Activation of VDSL Service using Zhone MX-160/260 MDU ONU DSLAM.
 - Configuration of Backbone VOIP customers (VLAN, DID, Username/Password).
 - Configuration of customer router (Cisco, D-Link, Buffalo, Zhone) for Internet and VOIP services.
 - Troubleshooting network related issues using Cisco Router 7200, 7300, 7400, 7500, RedBack SE1200 BRAS Router, and DSLAM (Cisco 6260, Zhone NP, Zhone MALC, Zhone MXK).
 - Provide technical assistance to field engineering team and technical support agents on various services and give them appropriate solution to any issue related to LAN/WAN connectivity issues (Signal Attenuation, disconnection, slowness, and delay/high Latency issues).

- Managing field engineering/technician team daily work process by assigning them tasks on a daily basis and create reports on work process and send these reports to the department manager.
 - Creating new user account and managing user's account using a RADIUS Server.
 - Testing and giving solution to new purchased equipments (Modem and Router).
 - Monitoring network performance and traffic load using MRTG Tool, Ping and Traceroute.
- **Technical Support Agent Level 1(Retail Call Center) - (Dec/2009 – 2011)**
Zajil/KEMS Telecom Company:
- Provide assistance to GPON, ADSL, Bonded-ADSL, Long Reach-ADSL, and Dial-up users.
 - Trouble shooting LAN/WAN connectivity issues: TCP/IP, DNS, Line attenuation, and expedite resolution. Diagnose user's link issues: link status, attenuation, attainable, port/slot status, and speed configuration using telnet session to DSLAM (CISCO, MALC, MXK, Paradyne).
 - Checking users account session status in RADIUS server.
 - Configuration of client's equipment Modem/ Router (GPON/ ADSL /Dial-up).
 - Diagnose network issues using command prompt (Ping, Tracert, nslookup, and etc...).
 - Diagnose and repair Wireless/Wired LAN issues (Laptops & Desktops) and provide full assistance of windows operating systems.
 - Configuration of client's Outlook mail service.
 - Training of recently hired staff.
- **Administrative Assistant - (Sept/2008 – Dec/2009)**
Al-Joman Center for Economic Consultancy:
- Maintain computer and manual filing systems.
 - Maintain contact lists.
 - Provide general support to visitors.
 - Provide information by answering questions and requests.
 - Reply to email, telephone, or face to face inquiries.
 - Record and prepare minutes of meetings.
 - Generate reports.
 - Oversee and supervise the work of junior staff.

Skills:

- Knowledge of office 365, and Windows server.
- Excellent in administration of Cisco and Microsoft products.
- Excellent in administration and troubleshooting of LAN/WAN/WLAN.
- Excellent in troubleshooting.
- Knowledge of network and cyber security: protection and countermeasures.
- Documentation & reporting.

- Teamwork.
- Management.
- And other skills not mentioned here.
